### REMARKS

#### Interview Summary

The undersigned would like to thank Examiner Minhloan Tran and Examiner Tan Tran for granting a telephonic interview on January 11, 2005, during which the 35 U.S.C. 103(a) rejection in the Office Action dated October 4, 2004 was discussed. More particularly, the undersigned and the Examiners discussed the rejections and the teachings of the Lee reference. After discussing that the matter, the Examiner indicated that the amendments submitted on January 4 would define over the Lee reference. The Examiners further agreed that if the Applicant amended the claims to specify '...a first control gate and a second control gate disposed respectively and separately on sidewalls of the silicon stripe' as discussed in the Response to Arguments by the Examiners in paper no. 20040901, the claims would also patently define over the cited reference and place the application in condition for allowance.

In response thereto, the Applicant has amended claims 13 and 15 to recite '...a first control gate and a second control gate disposed respectively and separately on sidewalls of the silicon stripe' which the Examiners considered as allowable. It is believed that no new matter has been added to the application by the amendments made to the claims or otherwise in the application.

In light of the foregoing amendments and for at least the reason set forth hereinbefore, Applicant respectfully submits that the now pending claims 13-19 are in

condition for allowance. Favorable consideration and allowance of the present application and all pending claims are hereby courteously requested. If, in the opinion of the Examiner, a telephonic conference would be of value in expediting the prosecution of this application, he/she is cordially invited to telephone the undersigned counsel to arrange for such a conference

Respectfully submitted,

Date :

*January 12, 2005*
